

RAT Collection Centres

- Those with symptoms, or who are a household contact, can place an order for unsupervised RATs and pick them up at a RAT Collection Centre. RATs can also be requested on behalf of someone else, including for all household members.
- People can order through <http://requestrats.covid19.health.nz/> or by ringing 0800 222 478 (option 3) from 8am to 8pm. People will need to have access to a mobile phone to validate their order.
- Information about RAT Collection Centres is available on Healthpoint - <https://www.healthpoint.co.nz/covid-19/?covidTesting=rats>. These are separate to CTCs and often have shorter wait times.
